

Maintenance Technician – Weekend Shift

Reports to: Manufacturing Engineer

Weekend Shift (Friday – Sunday 2:30pm – 3:00 am)

36 hours/week (work 36 hours get paid for 40 hours)

Position Summary:

Virnig Manufacturing is seeking a Weekend Shift Maintenance Technician. This position will be responsible for Maintenance and repairs throughout the facility. The person in this position will be trained to operate machines for troubleshooting and calibration. Proficiency in operating a forklift, understanding of electrical schematics and ability to follow written and verbal instructions are necessary. Must be comfortable with heights.

Responsibilities

- Tool maintenance and repair (electric, air, and manual tools)
- Lifting equipment maintenance and repair (clamps, slings, hoists, jibs, etc.)
- Forklift maintenance and repairs
- Building maintenance and repair (dock plates, doors, lights, HVAC, air handling, air lines, plumbing, etc.)
- General electrical work that can be legally performed by a non-licensed individual
- Organize and record repair and maintenance information, such as type, cost, and frequency, in spreadsheets and graphical form.
- Organize and/or perform daily, monthly, quarterly, and yearly safety inspections (forklifts, fire extinguishers, carbon monoxide, etc.)
- Painting equipment maintenance and repair.
- Large machinery maintenance and repairs (laser, press brake, CNC, etc.)
- Perform lockout/tagout procedures when machines are being worked on
- Inform and enforce safety protocol to outside contractors
- Periodically meet with Safety Committee and communicate ideas to Production Manager
- Grounds work (snow removal, ice melting, lawn care, general cleaning, etc.)
- Assist with new equipment installations and shop set up.

Requirements

- High School Diploma or equivalent; basic math skills required.
- Mechanical experience.
- Forklift and hoist experience required.
- Ability to operate pneumatic and hand tools.
- Ability to read and follow instructions both written and verbal.
- Ability to work at heights and in confined spaces.
- Ability to diagnose PLC issues.
- Must be organized and maintain a clean work area.
- Ability to read schematics and troubleshoot machines using an electrical meter or other tools.
- Ability to pay close attention to details and maintain data integrity to a high degree.
- Good communication skills (verbal, listening, written).
- Ability to work independently and on a team.
- Able to lift up to 100 lbs, bend, twist, stand or sit for long periods, endure repetitive motion.

VIRNIG MANUFACTURING IS AN EQUAL OPPORTUNITY EMPLOYER

All qualified applicants will receive consideration for employment without regard to race, color, creed, religion, sex, national origin, marital status, familial status, pregnancy, sexual orientation, age, disability, military service, veteran status, gender identity, status with regard to public assistance, or any other class protected by law. The company provides reasonable accommodations to applicants with known disabilities, unless doing so would cause undue hardship for the Company.
