## VARIOUS CHAIN CONFIGURATIONS – 6", 8", 10" and 12" chain widths available.

### SINGLE STANDARD

Cup tooth every other station. Designed for soft to medium soils. Works well in wet and sticky soils such as wet clay.

### DOUBLE STANDARD

Cup tooth every station. Designed for soft to medium soils. Works well in sandy, dry and loosely-packed soils.

### TERMINATOR

50% cup teeth, 50% shark-style teeth with embedded carbide inserts. Designed for soft to hard soils as well as rocky. The most versatile chain style.

### CARBIDE TIP SHARK STYLE

### ROCK & FROST

50% cup teeth, 50% replaceable, rotating carbide rock teeth. Designed for rocky soils as well as frost. Carbide teeth spin as they hit rocks for even wear and longevity.
